DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Newly submitted claims 73, 81 and the claims dependent therefrom are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: subject matters in newly submitted claims are directed to an electron-emitting apparatus having carbon fibers stacked in a fiber axis-direction.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 73-85 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 21-34 and 36 are allowed.
3. Claims 73-85 must be canceled in order to pass the case to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
